

# Wurdinger Manufacturing Inc.

Specializing in nursery equipment designed to reduce labor cost and improve efficiency.

**Wurdinger Manufacturing presents the**

**A O Track Buddy!!**

Necessity is the mother of invention. The A O Track Buddy was invented by skid steer owner Arnold Otter. Realizing the need for a better and faster way of installing and removing his steel tracks, and not being able to find one at any of his dealers Arnold invented and built this tool which solved the problem. After encouragement from his family and friends Arnold had it patented (U.S. patent US 7,634,899 B2), and has authorized Wurdinger Manufacturing to offer it to other skid steer owners.

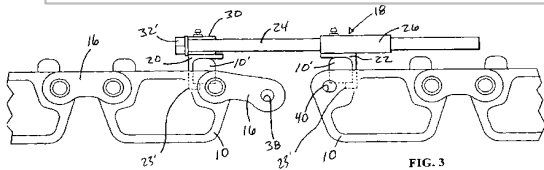

FIG. 3

U.S. Patent US 7,634,899 B2

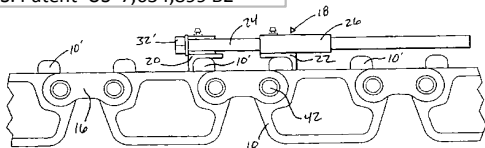

FIG. 4

Sid Wurdinger-Owner -503-930-3496
